#### Essential reading

Your main reading for this unit is the subject guide. However if you wish to read further, then we can recommend the following books:

Bergstrom, T.C. and H.R. Varian *Workouts in Intermediate Microeconomics*. (W. W. Norton & Co., 2006) seventh edition [ISBN 9780393928815]. This is good for practising problem-solving.

Tirole, J. *The Theory of Industrial Organization* (MIT Press, 1988) [ISBN 9780262200714].

This is excellent for the second part of the guide dealing with pricing practices and strategic market interactions.

Varian, H.R. *Intermediate Microeconomics*. (W. W. Norton & Co., 2006) seventh edition [ISBN 9780393927023]. This can be useful mainly for the review part of the course and for those who prefer a less mathematical treatment.
