Essential reading

Brealey, R.A., S.C. Myers and A.J. Marcus *Fundamentals of Corporate Finance*. (McGraw-Hill Inc, 2007) fifth edition (Intl) [ISBN 9780073012384].

Further reading

Brealey, R.A. , S.C. Myers and F. Allen *Principles of Corporate Finance*. (McGraw-Hill, 2008) ninth edition (Intl) [ISBN 9780073368696].

For those of you who are studying on your own who find difficulty with the recommended basic text of BMM another text is offered, but note that it does not cover the subjects to the same depth and rigour required. This supplementary primer is:

Atrill, P. *Financial Management for Decision makers*. (FT Prentice Hall Europe, 2005) fourth edition [ISBN 9780273702498].

There are, of course, numerous other corporate finance and financial management texts available. In the subject guide we also refer to:

Pendlebury, Maurice and R. Groves *Company accounts, analysis, Interpretation and Understanding*. (Thomson, 2004) sixth edition [ISBN 9781861529473].
